

Captures Gentle Moments of Baby's First Year

Children grow and change in their first year of life. Studio D will capture your child's extraordinary first year with our Cuddle Collection. The Cuddle Collection is a series of four portrait sessions scheduled at pivotal times throughout the year.

Hold Me Tight

The Newborn Session focuses on the 'snuggle' relationships of mother and her new baby. Daddy is also encouraged to be included in this precious session. We will also zoom in close to capture the tiny features of your new baby.

Look At Me

A portrait session that occurs when your baby is three months old. It is remarkable how much your little bundle has changed so soon. At three, months babies begin smiling, holding their heads up, recognizing your face, and playing with their toes.

Here I Sit

A session for your six month old shows the beginning of your baby's independence. Your child may be sitting independently for this session. Simple, form-fitting, classic-cut and solid-colored clothes will show off your baby's eyes, chunky arms and legs, and round belly.

Here I Go

The fourth session celebrates your baby's first birthday. Capture your child's budding personality, as he or she is standing independent, navigating furniture or triumphantly taking first steps. Choose a formal or casual setting.

\$99

Includes one 4x5 portrait from each portrait session.

\$250

Includes a custom storyboard which is designed with one portrait from each of the four sessions.

\$50

Add a beautiful maternity session and one 4x5 To your collection.

Maternity session scheduled at approximately 7 month/28-30 weeks.

Session fees are included with each option.
